

# Your home, as new. It's that simple!

Planning a renovation? Settling into a new place?

Or maybe you just need a change?

With Vilo products you can change your place on your own:  
affordable, quick and easy. And the effects will be unique.

Think about how much will change when you start with the  
walls. Wood? Concrete? Brick? Now it is possible!  
Decorative wall Motivo will allow you to easily get the desired  
effect. It is not only easy to install and trouble-free to use,  
but above it all will make your home really beautiful.  
Just take a look.

## Start with the wall

No more hardships for wallpapering, plastering or painting - just stick Motivo panels to the wall. Intuitive installation and a huge range of patterns will let you adjust the room as you wish. The effects will surprise you!

Enjoy your renovation with Vilo. Our wall is water-resistant and easy to clean, which is why it perfectly passes the exam in the kitchen, bathroom or hallway. Thanks to its durability it will serve you for years. Motivo is a DIY product, so anyone can install it without construction team. The assembly is so simple that it quickly turns into fun with family or friends. Motivo is a wall perfect for everyone looking for interesting patterns at a reasonable price.

## Pick the best option for you

Motivo wall is available in a wide range of patterns for everyone to make their ideas come true. In this catalogue we are presenting 128 decors divided into three collections – Modern, Classic and Fun. The decorative wall is built from light panels 265 cm long. The panels differ in width and their number in a package. We created special pictograms describing the rules of pattern composition to help you orient in our broad offer. Choose the best option for you.

This pictogram means that in the package are 4 panels with a width of 25 cm. You need 4 panels to create a full pattern.

Decors marked with this pictogram are 33 cm wide. There are 3 panels in the package. All 3 panels are needed to create a full pattern.

In this case, each of 4 panels having a width of 25 cm is the same, i.e. the pattern is repeatable.

This pictogram indicates that the package contains 3 panels with a width of 33 cm. Each panel is the same, i.e. the pattern is repeatable.

## Modern Collection

For practical people who follow the latest trends

Want to be up-to-date? The Modern Collection was designed just for you. A combination of toned-down colours and bold textures will help you achieve a fashionable look. Adjust your rooms to yourself with a broad range of motives – inspired by traditional materials and artistic fantasy. Modernity has many faces.

Inspiration is everywhere

You are never bored at home

Motivo Modern | Decors

Make your room cosy! Choose from a number of decorative wall panels from the Motivo series inspired by natural wood. The colours on offer will warm your space. They are also extremely versatile – they will suit any room.

# Classic Collection

For people, who seek comfort and peace in their space.

If you appreciate comfortable style and timeless design this is the collection for you. Classic choice of colours and textures will allow you to arrange your rooms to be both stylish and harmonious. Warm colours and inspiration coming from nature will help you to establish a cosy mood there.

Classic is always trendy

You can change your home

Motivo Classic | Decors

Think about what kind of classics you like best, and then choose the right theme and colour. If you select wood, please note that its type and colour may really change your interiors. Natural brown will make them warmer, whereas shades of grey will give them a fresher look.

You’ve already found a pattern for you? To achieve the perfect result use one of our finishing trims.

Universal finishing trim Vilo B6

Thanks to its construction, self-adhesive trim B6 has universal usage. This trim is perfect to connect panels with each other (e.g. corners) or with a wall (finishings). The width of a trim is 34 mm. Big range of colours helps to match the trim with the selected Motivo decor.

New colours - allow you to perfectly match the trim to Motive decors

Dedicated trims Vilo B1-B5

These types of trims are dedicated to a specific application when assembling Motivo walls, e.g. connecting with the ceiling. Choose the trim with the colour most suitable to the colour of panels.

New dimensions - thanks to thinner trims the finishing of your decorative wall is even more delicate

You have chosen Motivo decorative wall? Now you just have to install it. You can achieve the desired effect in two ways. It is really easy!

## Installation using an adhesive

If the walls are even, choose quick installation with adhesive directly on the wall:

1. Use assembly adhesive for inside applications (you can buy at any DIY store).
2. Apply the adhesive on the panels making the "S" shape and fix the panel to the wall with its tongue on the left side.
3. Hold the panel for several seconds, then install next panel.

## Installation on a frame

In case of uneven wall you first have to even the installation surface by building a wooden frame (detailed manual can be found here -> [www.vilohome.com](http://www.vilohome.com)):

1. Install the trims of the frames perpendicularly to the placement of the panels (if you place the panels vertically, the trims should be attached horizontally).
2. The easiest way to attach the panels to the frame is with a tackler. Attach them on the right side, behind the slot.

Regardless of the installation method it is important to place the panels in order from left to right. A single panel should be attached to the wall and the subsequent one should be placed with its tongue in the slot of the previous one. Look at the panels in both widths.

Also, remember the rules of installing panels. Pay attention to the pattern composition on your decorative wall.

For most decors the pattern is compiled of 3 or 4 panels. Check if the panels have numbers printed on the backside:

## Panels marked with numbers

During the installation, attach the panels in proper order (1, 2, 3,...).

## Panels are not numbered

The panels may be installed in any order.

## Still not sure?

If you're not certain how to mount the Motivo system, just visit our website at [www.vilohome.com](http://www.vilohome.com). There you will find video and installation guidelines for our walls.

All colours shown in this publication are only sample colors and should not be considered as original ones.
