

## Your home, as new. It's that simple!

Planning a renovation? Settling into a new place?  
Or maybe you just need a change?

With Vilo products you can change your place on your own:  
affordable, quick and easy. And the effects will be unique.

Linela skirting boards  
is a new solution in the offer of Vilo skirting boards.  
The slim shape, beautiful colours and even easier assembly  
are not the only advantages of this collection.

## Pay attention to details

Think about what your home should be like. Choose products that will help you create effortlessly a place where you will feel good. The Linela skirting boards collection gives you the opportunity to finish the floor in several ways. You can choose the traditional pattern in the colour of the panels or you can opt for a contrasting colour combination. You can always be sure that with Vilo skirting boards the floor will always look good.

## Try a new solution

For those who want a nice and practical interior, we have prepared a collection of Linela skirting boards. These skirtings are of a non-standard height (8 cm), which distinguishes them in the Vilo skirting offer. Their slim shape will make your space a more subtle look.

The Linela collection now offers even more choice. The latest skirting boards in three shades of grey and the black skirting board allow you to create contrasting combinations with the floor. An interesting character will be given to the interior by a silver-coloured skirting board with an effect of brushed aluminum. The classic way to finish the floor is to choose one of the oak patterns matching the panels. The white skirting board, on the other hand, is a universal way to finish any floor.

Linela skirting boards are very practical: resistant to damage and water they are also easy to install.

The latest production technology of the Linela skirting boards has helped to significantly reduce its carbon footprint.

The Linela collection includes shades of oak complemented by single-colour skirting boards. Fifteen colours make the range perfectly matched to slender skirting boards.

402 Wellington Oak

403 Hamilton Oak

407 Newcastle Oak

## Linela | Assembly instruction

Linela skirting boards are glued directly to the wall - all you need to do is apply glue according to the assembly instructions on the label, press the board against the wall and you are done!

To be sure that the assembly of your skirting boards will be quick and trouble-free, use the dedicated Vilo glue. Its recipe has been composed so that the skirting boards adhere perfectly to the wall for a long time. The adhesive has a high pre-bond strength and works quickly, but it hardens only after 20 minutes, which allows for possible corrections.

EXCELLENT  
ADHESION

1. You need two types of glue to install Linela skirting boards:
  - Vilo mounting adhesive - for skirting boards
  - hot glue - for finishing accessories.
2. Prepare the tools: a sharp saw, pencil and ruler.
3. Peel off the label from the strip - on its reverse you will find a detailed assembly instruction.
4. Cut the skirting board to the correct length.
5. Apply Vilo assembly glue to the skirting boards - exactly as in the instructions on the label.
6. Attach the appropriate finishing accessories with hot glue.
7. Press the boards with attached accessories to the wall.

All skirting boards from the Linela collection are accompanied by a set of colour-matched finishing accessories.
